

## Kids Fun and Creative Sewing Classes

*Parents have been asking us for ages, if we could offer classes in the art of “Hand sewing” for children. Sadly this is not an activity enjoyed on the school curriculum anymore. We wanted to ensure that we had a calendar of projects that would progressively develop your child's sewing skills, in a fun and accessible format.*

*We are now proud to offer a full range of classes that will take children aged from 8years upwards through the art of sewing, step by step. Covering all the basic sewing stitches & techniques, in practical but fun projects. Our tutor Heather, is not only CRB checked but an experienced seamstress and school teacher.*

*Classes are £10 per person. This includes an hour and a half tuition and ALL materials required to complete each project. There are no more than 6 children per group to ensure they all get the tuition time required to complete their masterpieces.*

### Easter Break
